

Our Mission:

Making known the love of God and His authority over all.

Dear Honorable Judge Rice,

I would be one of the first to thank God for our Judicial System. I recognize God's institution of government for order and rule in our society. For that, I say thank you!

I also pray for those making awful choices that as they suffer the consequences there would be remorse, repentance, and restitution for their good as well as society.

Daniel Wilson has been one who obviously paid a high price for his action. He has experienced his just due in his life, his family, and our community.

I have been grateful for his sincere repentance and efforts to rectify his wrong.

I am thankful for his efforts to prove his sincerity by bettering himself through faith as well as the substance abuse program from which he will graduate on July 16th.

I trust that you and others concerned will recognize these positive signs as motivation for reconsideration of his sentence.

Then, through an extended probation along with community service, we can all witness the good from something so bad.

Thank you for your kind and prayerful consideration.

As you know as his pastor my concern is not only for Daniel, but for his wife, his marriage, his precious daughter, and their families.

Again, God bless you and thank you.

Sincerely,

Rev. Jack Fitts
